DVD-R155

DVD Recorder

Recorder

Full multi format recording works with almost any type of disc you choose, recording on DVD-RAM/-RW/-R/+RW/+R.

HDMI (High-Definition Multimedia Interface) transfers hi-definition (1080i/720p) video and audio from your DVD Recorder to your TV, Home Theater, or other digital AV components. Simply connect your DVD Recorder to your Home Theater System with a single cable for the high quality pictures and sound.

-R dual layer recording lets you record on -R dual layer discs for more than 14 hours of programming.

Hi-Def conversion DVD player 1080p up conversion up-converts the resolution of ordinary DVDs to 1080p/1080i/720p/high-definition.

Front DV input: The DV input on the front panel lets you edit and record from a digital camcorder directly onto a DVD disc through a single cable—without losing image quality.

Progressive scan output scans individual picture lines in sequence rather than alternately, maximizing the clarity of digital images and bringing new realism to your DVD viewing experience.

One touch recording

Auto fit recording

Convenience

Auto chapter creator: Samsung's DVD recorders creates chapters when you record your favorite TV shows or video clips from a camcorder / VCR onto a DVD—so you won't waste time searching the whole DVD to get to the right spot!

EZ record function: After pressing the REC button, the time it takes to start recording is only a second.

Playable formats: DVD video, DVD-R, DVD+R, DVD+RW, DVD-RW, DVD RAM, CD-R/RW, CD-DA, MP3, WMA, JPEG.

Warranty

1 year parts and 90 days labor warranty backed by Samsung toll-free support.
